

RIDGE VENT ENDCAPS™

Stop BATS, ROOF RATS, MICE and Other Pests from getting into your attic

Keep Bats, Rats, Mice, Bees, Wasps and other pests and rodents out of your attics with ridge vent "EndCaps™" from StoufferTech™. Ridge vent EndCaps™ are available for both metal and plastic ridge vents and are adjustable to fit most roof pitches.

Metal ridge vents are capped with a rubber boot which allows Bats, Rats, Mice, and other rodents to push their way past the rubber boot and directly into the attic.

Metal ridge vent with a EndCap™ will stop Bats, Roof Rats, Mice and other pests from entering the attic because they can't push past the End Cap™.
Part #RVC-MM155

Plastic ridge vent without end cap. Opening allows Bats, Mice, Bees, Wasps and small rodents direct access to the attic

Plastic ridge vent with EndCap™ stops Bats, Mice, Bees, Wasps, Hornets and other critters from entering the attic.
Part #RVC-MP170
